Sorry for the delay in responding and probably and inadequate response but here it is:-

1. I am retired and have the time, inclination and experience to make a contribution. I have a lifelong interest in local government and have previously served as a councillor in both Yass and Queanbeyan.

2. All of the above with road maintenance as a top priority in the medium term.

a. 2

b.4

c.5

d.1

e. 3

3.The elected councillors are ultimately responsible, guided by the professional advice.

4. I am at this time, uncertain whether there are in fact any pro's.

5. Road damage, increased traffic, pollution, environment and policing of the product.

6. Sorry I do not have sufficient information at this time to make a comment on this question, or on question 7.
